Type of benchmark or family of benchmarks	Equity
Name of the benchmark or family of benchmarks	EQM Global Solar Energy Index PR
Does the benchmark methodology for the benchmark or family of benchmarks take into account ESG factors?	Yes

ESG Factors Applied in the Benchmark Methodology

List of environmental factors considered	<ul style="list-style-type: none">> Exclusion of companies with verified ongoing failure to respect established international norms. The core normative framework consists of the Principles of the UN Global Compact and the OECD Guidelines for Multinational Enterprises.> Exclusion of companies generating revenues (in proportion to their total revenues) >10% from exploration mining or reining of thermal coal, or basing >=30% of their operations on thermal coal or producing >20 million tons of thermal coal p.a. and are actively expanding.
List of social factors considered	<ul style="list-style-type: none">> Exclusion of companies with verified ongoing failure to respect established international norms. The core normative framework consists of the Principles of the UN Global Compact, the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles for Business and Human Rights.> Exclusion of companies with verified ongoing involvement in the production, development, or maintenance of controversial weapons (including chemical, biological and nuclear weapons, depleted uranium munitions, cluster munitions, anti-personnel mines, and any other weapon that violate humanitarian principles through normal use), or producing or developing key and dedicated components for controversial weapons, or involved in the production and/or services tailor made for the defense industry or the military. Additionally, companies holding >=20% stake in a company that is involved in controversial weapons or companies currently >=50% owned by a company that is involved in controversial weapons are excluded.> Exclusion of companies generating revenues (in proportion to their total revenues)>5% from production or >5% from distribution of arms (both public and private).> Exclusion of companies generating revenues (in proportion to their total revenues) >5% from manufacturing of tobacco or >5% from distribution and/or sale of tobacco and/or tobacco products.

List of governance factors considered

> Not applicable.

Data and Standards used

Data Input	The data used to construct the index is sourced externally from Minerva Analytics Ltd.
Verification and quality of data	The provider of ESG-related data input is selected by the Administrator based on an assessment of its existing processes in order to ensure the reliability and representativeness of the ESG-related data. The data provider has established processes in accordance with accepted and established market standards that ensure the permanent quality and reliability of the ESG-data provided.
Reference standards	International standards referenced by the index methodology are listed in the respective section above.
Information updated on	22/02/2024
Reason for update:	Fixing typo in ESG provider name
