### AKTIONÄR Zero Plastic Index

#### DESCRIPTION

Alternative packaging and recycling Packaging films, tear-off bags, beverage bottles – we come into contact with plastic almost every day. Year after year, our oceans are increasingly deteriorating into plastic repositories. Microplastics can even be detected in our food chain. One thing is certain: we must reduce the use of plastic. The "AKTIONÄR Zero Plastic Index" focuses on this trend. It contains eight European companies that are helping to stem the plastic flood with their alternative concepts.
